Salt	Japan		
Thickener (guar)	India Pakistan		

Product Characteristics	Use Scenes (Usage・Recipes)
We use select hokke freshly harvested in Sea of Japan near Hokkaido and make it into fry with uncolored bread crumbs. The fry boasts a great texture and flavor of fatty hokke caught in the nearby waters. It richly contains unsaturated fatty acid required for our healthy development, which everyone can consume tastily from fried hokke.	Fry the frozen shrimps in cooking oil heated at 175°C for 3 - 3.5 minutes to enjoy delectable fried shrimp, a perfect side dish for your dinner, a great appetizer, and a popular lunchbox ingredient.
